

Hackett Harrows

Concord Section

Harrow sections are available in 4'-0", 6'-0", 8'-0" and 10'-0" widths with a standard depth of 8'-0". They are manufactured from 1/2" diameter high quality steel.

Sections can be carried in multiples on drawbars ranging from 4'-0" to 18'-0" using 4'-0", 6'-0", 8'-0" and 10'-0" sections.

Ranger Section

Harrow sections are available in 4'-0" and 6'-0" widths with depths of 6'-0" and 8'-0".

They are manufactured from 5/8" diameter high quality steel.

Sections can be carried in multiples on drawbars ranging from 4'-0" to 18'-0" using both 4'-0" and 6'-0" sections.

Paddock Section

Harrow sections are available in 4'-0" and 6'-0" wide by 4'-0" deep with 1/2" diameter tines. These Junior size harrows can be used with garden tractors, ATV's and pick-ups.

Timeless Technology

A company of the future backed by over 100 years of tradition

Hackett Harrows - Specifications

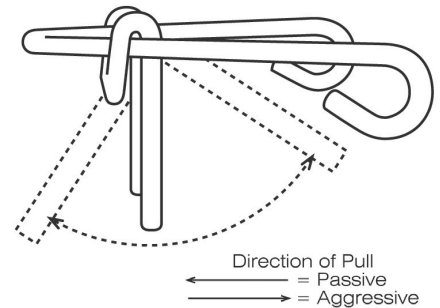

REASONS FOR HARROWING

The flexible harrow was invented in the late 1800's.

Since that time, William Hackett has continued the spirit of innovation by consistently offering the finest, most innovative harrows on the market today manufactured using the finest quality steel with a high resistance to wear.

- Scarifies hay and pasture land to stimulate new growth and loosen crusted surface
- Root aeration for better water infiltration and growth
- Covering broadcast seed for effective germination
- Herbicide incorporation to level the ground and seal in herbicide for maximum effect
- Eliminates crusting, breaks up clods and levels cultivated ground
- Self cleaning action spreads difficult material without plugging the tines
- Environmentally friendly grass care.
- Loosen and level paths and driveways.
- Ring maintenance for smooth, well prepared traction
- Saves time and fuel as the harrows can be pulled behind all types of tractors, 4x4's, ATV's and utility vehicles

Tine Action

Type	Depth	Tine Size	Application	Weight (lbs)			
				4'-0"	6'-0"	8'-0"	10'-0"
Concord	8'-0"	1/2" dia x 3 1/2"	For pasture renovation, break up clods and crusting in cultivated ground, also suitable for sports fields, racetracks and golf courses	150	243	320	397
Ranger	6'-0"	5/8" dia x 4 1/2"	For pasture renovation and breaking up and mixing post harvest residue. Also suitable for working cultivated ground.	181	286	—	—
	8'-0"	5/8" dia x 4 1/2"		236	374	—	—
Paddock	4'-0"	1/2" dia x 3 1/2"	For paddocks, sports fields manege and horse arenas	75	121
