# Hackett Harrows - Specifications

## Reasons for Harrowing

- Pasture renovation; breaking up and levelling heavy soil.
- Root aeration; for better water infiltration and growth.
- Works in fertiliser to both spread and maximize effectiveness.
- Surface levelling in equestrian centres, race tracks, and running tracks.
- Stimulates growth by aerating and loosening thatch.
- Excellent for ripping out moss, spreading manure, and levelling mole hills.
- The robust design of the tines embodies strength throughout.
