

MAGNA The obvious choice

Fulfil highest standards in the market

MAGNA

1000 - 1200 - 1500 - 1800 litres

MAGNA HYS 12-14-15-16-17-18 m

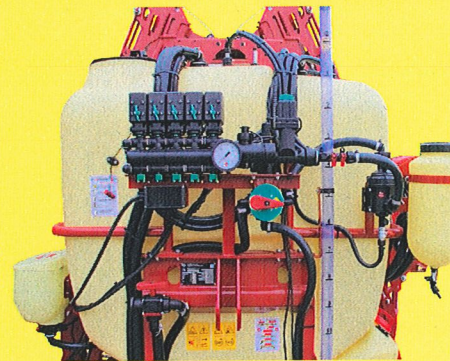

Boom range

The HYS booms are offered in bi articulated version of 12 and 14 m. The 3 articulated booms are 15, 16 17 or 18 m wide. Common for all models is single side folding or better ¼ fold to pass by trees and obstacles in field. The standard is hydraulics direct to tractor.

As an option, a joystick is offered to unify the hydraulic outlets to just one double-acting outlet.

EVC

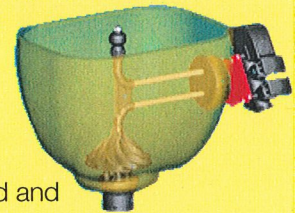

The EVC control unit allow remote operation of the spray liquid. Accuracy and constant pressure secures 100% even dose no mater if one or more sections are closed.

Safety features

To meet all your expectations. Filling, mixing and loading your sprayer exceed every standard with the compact 15 l TurboFiller.

Undiluted liquid formulations are induced safely and at speed. Dry formulations can be premixed and induced too. No mess, no hold back, no spills, no need for buckets and stirring sticks.

Optionally

Optionally the spray computer HC5500 can be added, as well as combined with the ASC SprayRover
