**OUTSTANDING
VERSATILE
UNIQUE.....**

THE MODEL 750 HAS EVERYTHING GOING FOR IT!

From manual control to hydraulic control...
lid...side pattern kit...plus 2 styles of banding kits.
All this, plus rugged construction to give you the
service you need. You can control seed amounts
down to 3 lbs. per acre and fertilizer from 50 lbs.
to 1,000 lbs. per acre.

Has easy-adjusted pattern control. Enables you
to center the spread of light or heavy material.

14 gauge steel hopper with welded seams.

Round hopper base prevents lodging of material
and assures even feeding.

Shielded power take-off shaft and gear box for long trouble-free use. Heavy cast-iron gearbox has tapered roller bearings, drop-forged gears and is filled with gear oil. The gearbox is standard for 540 rpm but can be ordered for 1000 rpm tractors also. Easy to operate. Convenient location of control handle.

Just the right size for farms, orchards and groves, golf courses, schools, parks, nurseries, shopping centers and conservation uses. Your answer for spreading all types of seed and fertilizer as well as salt and calcium on ice and snow.

MODEL 750 3-PT. FOR CATEGORY 1 TRACTORS

750 lb. Capacity-9.6 bushels-12 cubic ft.

OPTIONAL EQUIPMENT:

Lid, 2 pieces.....#835

Lime Agitator.....#158 for spreading dolomite or dehydrated lime.

Brackets.....#217 to convert Category 1 to Category 2.

Small Seed Hopper...#1090 for spreading small seeds, as clover and alfalfa, at the same time oats are broadcasted.

Hydraulic remote control kit.....#1000

Kit for use with 1000 kit to install Small Seed Hopper.....#1028

Regular trailer.....#268 with #844 mounting. Trailer with 45" PTO shaft and 15" wheels but no tires.

Hydraulic Motor ..#248 hydraulic motor and valve available to power gearbox instead of PTO shaft.

Herd

MODEL 750 WITH 180 MANUAL BANDING KIT ON ORCHARD TRAILER

180 MANUAL BANDING KIT

Orchard Trailer, (Optional) Part #269 w/low profile wheels and flotation tires.

#180 Manual Controlled Banding Kit with dual openings assures spreading even amounts on both sides. Blocking plate for one-side application..left or right. Adjustable from 60 inches to 34 feet, with no center spread where not needed. (On wide spreads such as 34 ft., pattern width is approximately 6 ft., and on 60 inches, pattern width is approximately 18 inches.)

OTHER OPTIONS AVAILABLE

- #82.....Side-Pattern Kit (Manual Controlled)
- #838.....Hydraulic Controlled Side-Pattern Kit, (must have 1000 kit installed)
- #275.....Rear Discharge only Banding Kit, (Gearbox must be set at 1000 RPM , but run at 540 RPM)
- #276.....Left Side Only Banding Kit, (No modification needed)
- #225.....Hydraulic controlled Banding Kit, (user must select either the 1000 or the 232 kit to complete installation)
- #232.....Mounting kit to complete mounting of 225 hydraulic controlled banding kit when user does not want to purchase complete 1000 hydraulic kit.
- #1000...Hydraulic Kit for remote control of seeder, (requires 8" stroke ASAE Hydraulic Cylinder) with 28-3/8" extended length. Cylinder not included.
- 225 Manual....Similar to 225 Hydraulic controlled banding kit, except 225 Manual uses two separate manual levers. One controls right side, one controls left side of Banding Kit. No additional kits required for use.

Herd

The Center of Attraction

Model 1200C The Proven Work-Horse

Model 1200C 3-pt. For Category 2 Tractors
1200 lbs. capacity-20 cubic ft. – 16 bushels

Time-proven and liked by all! Has a 1200 lb. capacity together with all the conveniences you'll want. A popular broadcaster used for spreading fertilizer and all sizes of seeds. Also used for spreading calcium or salt on ice or snow and is ideally suited for golf courses, nurseries, shopping centers, schools,

highways, parks and other large grass areas. Amount of spread per acre of seeds may be controlled down to 3 lbs. per acre. Fertilizer from 50 lbs. to 1,000 lbs. per acre. No Special parts needed to change from seeds to fertilizer. Get any even spread with Herd's easy-adjusted pattern control. Even spread widths up to 40 ft. depending on density of fertilizer or seeds. Rotating agitator and fan driven by heavy-duty enclosed gearbox and shielded power take off shaft. Heavy cast iron gearbox has tapered roller bearings, drop forged gears and is filled with gear oil. Gearbox is standard for 540 rpm, but can be ordered for 1,000 rpm tractors also. Heavy duty 14 gauge steel hopper with welded seams. Round hopper base prevents corner lodging of material, assures better feeding. Rugged construction...2inch square tubing frame with built-in stand.

OPTIONAL EQUIPMENT

Lid, 2 pieces.....#1087
Lime Agitator.....#158 for dolomite or dehydrated lime
Regular trailer.....#268 and #266 trailer w/45" P.T.O. shaft and 15" wheels, no tires.
Kit #1125 to convert to Category 1
Hydraulic motor.....#248 and valve available to power Gearbox instead of P.T.O. shaft.
Hydraulic remote control kit.....#1000
Kit for use with 1000 kit to install small seed hopper.....#1028
Small seed hopper w/handle, 80 lbs. or 1.3 bushels capacity.....#1090
For clover, sweet clover or alfalfa when spread with oats.

Optional easy bolt-on 14 gauge Hopper Extension #161. Raises capacity to 1 ton or 29 bushels. Only 6 holes to drill. Lid #239 for hopper extension available.

Herd

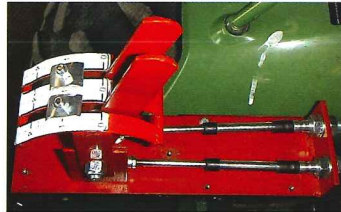

FOR ORCHARDS AND VINEYARDS..... BANDING KITS

225 MANUAL BANDING KIT

This unit has 2 control cables that operate independently with 2 separate levers. This allows the operator to spread material to both sides at the same time or to one side or the other. This is accomplished by control levers mounted beside the operator, as shown in picture below.

Also available, the Hydraulic Controlled 225 Banding Kit.

This takes the work out of opening and closing...lets the cylinder do the work.

Individual cables to each

opening...disconnect one for one-sided spreading. Precision openings fine for spreading granular chemicals as insecticides and herbicides. Also available for 225 Banding Kit when mounted on 1200C, the 525 Dual Hydraulic Cylinders for INSTANT-ON...INSTANT-OFF control for right or left spreading. Both style Banding Kits are ideal for spreading fertilizer under fruit and nut trees, in vineyards, nurseries or any place where band spreading is desired. The chutes are adjustable from 60 inches to 34 feet, with no center spread where not needed. (On side spreads such as 34 ft., pattern width is approximately 6 ft., and on 60 inches, pattern width is approximately 18 inches.)

OTHER OPTIONS AVAILABLE

1200C w/Orchard Trailer, #269 w/Low Profile Wheels & Flotation tires.

#82 – Side-Pattern Kit (Manual Controlled)

#838 – Hydraulic controlled side-pattern kit. (Must have 1000 kit installed)

#180 – Manual Controlled Banding Kit

#275 – Rear Discharge Only Banding Kit (Gearbox must be set at 1000 RPM but run at 540 RPM)

#232 – Mounting Kit to complete mounting of 225 hydraulic controlled banding kit when user does not want to purchase complete 1000 hydraulic kit.

#1000 – Hydraulic Kit for remote control of seeder (Require 8" stroke ASAE Hydraulic Cylinder) with 28-3/8" extended length. Cylinder not included)

1200C w/225 Manual Banding Kit

1200C w/#276 Left Side Only Banding Kit

Herd

FROM BIG TO SMALL WE'VE GOT IT ALL

2440 IS THE BIG ONE! COVERS ACRES AND ACRES WITHOUT STOPPING

Comes standard with hydraulic remote control.
You can use a quick-hitch with this one.

Use your own 8" stroke cylinder to open and close
the seed gate from your tractor seat.

Heavy-duty independent stand and carrying frame.
Hopper is 14 gauge steel with full welded seams and
good slant for self-cleaning.

Heavy cast-iron gear box has tapered roller bearings,
drop-forged gears and is filled with gear oil.

The gearbox is standard for 540 rpm, but can be
ordered for 1,000 rpm tractors also.

Shielded power take-off shaft with replaceable
universal bearings.

Rotating agitator for even feeding. Heavy-duty corrosion resistant aluminum alloy fan with replaceable blades.
Spread pattern easily centered by adjustable base plate.

Amounts can be controlled from 3 lbs. To 1,000 lbs. per acre. Uniform spreads up to 40 ft. Weight of material
determines width of spread.

MODEL 2440 3-PT. FOR CATEGORY 2 TRACTORS
2440 lbs. Capacity-40 cubic ft.-32 bushels

OPTIONAL EQUIPMENT

Lid, 2 pieces.....#1136

Lime Agitator.....#158 for spreading dolomite and dehydrated lime. Not recommended for wet lime.

Small Seed Hopper.....#1090 To use on Model 2440, the #1037 Nose Extension and #1039 Control Kit are needed.

Use small seed hopper for spreading clover, sweet clover and alfalfa with oats

Hydraulic Motor.....#248 Hydraulic motor and valve available to power gearbox instead of PTO shaft.

Regular Trailer.....#268 Basic regular trailer frame w/45" PTO shaft, tongue jack and two 15" wheel (less tires)

Orchard Trailer.....#269 If trailer is desired with banding kits - this one must be used.

Parts Kit.....#1035 to complete mounting to trailer. *Comes standard when seeder & trailer are ordered together.
